

Kitty Cat Connection, Inc. is a non-profit, humane organization dedicated to:

- Reducing suffering and overpopulation among feral and abandoned cats
- Fostering and finding caring homes for all rescued cats
- Promoting spay/neuter and adoption as a way to address the problem of homeless cats in our community

Letter From the President

June is Adopt a Shelter Cat Month! June 4-10 was recognized as Pet Appreciation Week.

I am sure you all have seen in the news and social media about the current "Kitten Season" that is overwhelming shelters and rescues. We cannot stress enough the need to spay and neuter your pets, strays and ferals in your neighborhood. There are not enough homes for all the cats and kittens and each year the overpopulation gets worse and the rescuers are exhausted and frustrated with the 24/7 work and expense to spay and neuter cats as well as care for them. We remind everyone that a kitten can breed at 4 months old and have kittens at 6 months old. They can have 3 litters a year averaging 4-6 kittens each time. There aren't an abundance of low cost clinics and many people do not have the extra money to invest in cats that are "not theirs".

Too many cats and kittens are being abandoned, dumped and neglected. There are not enough rescuers or shelters to help all the daily urgent appeals to take them. Many people are

financially challenged with the cost of caring for their own pets. Please urge all you know who can help to save kitties who are trying to survive due to no fault of their own. These kitties

are too often past pets of irresponsible people who contribute to the problem by not altering them. Rescue and concerned people are faced with the consequences of others and the stray cats and kittens are the victims. Yes, the topic gets old. The appeals continue from rescues to the community to help.

Thank you to all who support our mission to save cats and kittens. We couldn't do it without you. We do what we can with the resources we have and we have made a difference to each and every kitty we have saved and rehomed.

Sandy Coffman, President and Co-Founder

KCC Adoptions are held every Saturday at Tiffany Springs Petsmart. Hope to see you there!

Success Story: Julie & Ivy

"Just wanted to send a note and picture of these two adorable babies we adopted last year, just before Halloween. They now go by Julie & Ivy and totally run our house. They are great cats and we're so glad to have them in our family. Thanks for all you do!"

Wellington (male, gray & white)

Hello! I am a handsome gray and white boy who is looking for a family of my own. I love people and attention and will gladly accept a lap to sit in and lots of petting and snuggles. I will sometimes even flop on my side and roll over for a belly rub! I haven't been around cats yet so it is uncertain what I think of them. I haven't been around dogs, either. I'd be happy as the only pet in my home. If you're looking for a sweet, loving companion to keep you company, look no further! For more information contact Kim at 816-719-6688.

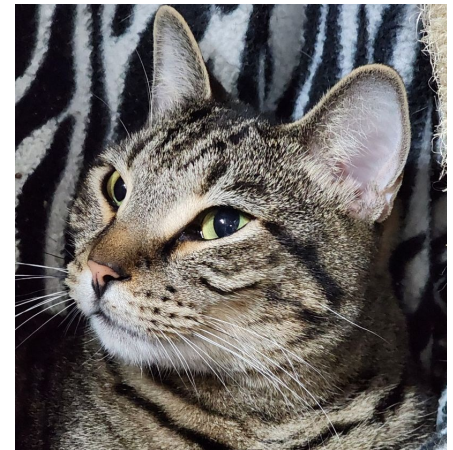

Frankie (male, brown tabby)

All of our cats and kittens are lovingly cared for in volunteer foster homes.

My owner had to move and couldn't take me. I'm a shy boy(not a lap cat). I have been sons of other cats. I'm a gentle boy who needs a quiet loving home.

For more information contact Sandy at 816-510-4400.

For more information

Ringo (male, black)

Ringo is a big sweetheart who would love to find his furever home. He is a very large boy who loves all people and gets along very well

with other cats! Ringo does have a chronic cough which may deter some people, but we hope that he will win the heart of some lucky person very soon

who would love to give him a great home.

For more information contact Sandy at 816-510-4400.

The Big Move: Helping Your Cat Adjust

Moving is stressful for most every one, including our feline friends. There are several steps that you can take to help the transition to a new home goes as smoothly as possible—and a lot of these tips also apply when bringing a new cat to your current home!

Set up a room in your home with as many familiar items as you can. The room should be secure and quiet, and provide them a safe space from all of the activities that go along with moving. Allow your cat to become comfortable with the one room before introducing them to the rest of the home.

Set up hiding spots, preferably in common areas. This will allow your cat to decompress, but also be near you.

Prepare to transport your cat.

Cats should be transported in a carrier to keep them safe and contained. If your cat is particularly stressed out by being in a car, you may consider reaching out to your vet for a sedative.

Get ready for day one! Your cat may not act like themselves at first, despite your best efforts to make the transition easy on them. An adjustment period should be expected. Which leads us to our last point...

Give them space. Do not force your cat out of their hiding spaces, but instead give them time and space to explore on their own. Always monitor their food and litter box to make sure they are getting what they need.

Grizabella (female, tuxedo)

Grizabella is a gorgeous 1 year old girl who is ready to find her furever family. She was abandoned in the country but was luckily found and then taken in by a KCC volunteer. She is a very friendly girl who loves attention. She needs to be the only pet since she

does not get along with other cats or dogs. Please contact us if you are interested in adopting this sweet girl. For more information contact Sandy at 816-510-4400.

Saving Lives - One Cat at A Time

Kitty Cat Connection spends most of its funding on vet bills, paying for spaying and neutering, shots and getting sick kitties well. Another large portion is spent on food and litter for our foster homes. Since we are a small group, we don't have large corporate sponsors supporting us. We are a non profit rescue, which means 100% of all donations go towards the care of our foster cats. It is because of donations from the public that we can continue to save cats lives. We would like to thank all of our followers for your continuous support.

WHAT INDOOR CATS MISS...

- BEING HIT BY A CAR
- BEING STOLEN
- BEING ABUSED/TORTURED BY STRANGERS
- RAIN, SNOW, VERY HOT or COLD WEATHER
- FIGHTS WITH CATS, DOGS, SKUNKS, FOXES COYOTES, BEARS & RACCOONS.
- BEING SOLD TO LABS FOR TESTING
- BEING USED AS BAIT IN DOG FIGHTING
- DISEASE, SICKNESS & INFECTIONS
- UNWANTED PREGNANCY
- ANTIFREEZE POISONING
- FLEAS, TICKS & WORMS
- ROCK SALT BURNS
- RAT POISONING
- ANIMAL TRAPS
- GETTING LOST
- FIREWORKS

Cole & Marmalade
